HINDUSTAN TECHNOLOGY GROUP

ABOUT THE COMPANY

HTCL Technologies Pvt. Ltd. is an ISO 9001:2015 and ISO 27001 certified organization and a fast-growing pioneer in IT, Engineering, and Telecom Services. Established in 2023, the company delivers reliable and scalable solutions to clients worldwide. As a CMMI Level 3 organization, HTCL follows well-defined processes, international quality standards, and secure delivery practices to ensure consistency, transparency, and customer satisfaction across all projects.

HTCL provides a comprehensive range of technology services, products, and digital transformation solutions that help businesses build, manage, and optimize their digital infrastructure. Our key offerings include custom web and mobile application development, cloud computing and migration, cybersecurity and compliance solutions, IT consulting, network and data management, and managed IT services. By combining innovation with industry best practices, we enable organizations to improve efficiency, enhance security, and accelerate growth in a competitive digital environment.

Alongside technology services, HTCL also offers end-to-end MEP (Mechanical, Electrical, and Plumbing) engineering services across India. Headquartered in Bangalore, we deliver complete MEP contracting solutions covering design, planning, execution, testing, and maintenance for commercial, residential, and industrial projects. Our engineering expertise and commitment to quality execution have positioned us as a dependable engineering service provider known for timely delivery and high performance standards.

HTCL is strongly committed to sustainability and the green revolution. We actively promote eco-friendly practices and deliver end-to-end sustainable and energy-efficient solutions, including green infrastructure initiatives and resource-optimized engineering approaches. Our goal is to create long-term value for clients while contributing positively to environmental responsibility and future-ready development.

HTCL: Your Trusted Partner in Technology & Innovation

Driven by innovation, skilled professionals, and a customer-first approach, HTCL continuously invests in research, modern tools, and emerging technologies such as AI, automation, and smart infrastructure solutions. Our vision is to become a globally trusted technology and engineering partner that empowers businesses with future-ready solutions while contributing positively to society, industry growth, and sustainable development.

Furthermore, HTCL emphasizes strong client relationships, transparent communication, and long-term partnerships. We believe in collaborative engagement models where we work closely with stakeholders to understand business objectives, deliver measurable outcomes, and provide continuous support even after project completion. This commitment to service excellence, reliability, and ongoing improvement enables HTCL to build lasting trust and deliver consistent value across every sector we serve.

WHAT WE DO?

At HTCL Technologies Pvt. Ltd., we specialize in delivering comprehensive technology solutions that enable organizations to operate smarter, faster, and more securely in a digital-first world. Our approach is centered on understanding each client's unique business model and crafting customized solutions that deliver measurable impact, long-term scalability, and sustainable growth.

We combine technical expertise, industry knowledge, and innovation to transform complex challenges into seamless digital experiences. From strategic consulting and enterprise platforms to cybersecurity and application development, we act as a trusted technology partner for businesses across industries.

Our Commitment:
We are committed to delivering excellence through innovation, transparency, and customer-centric service. Every project we undertake is guided by quality standards, timely delivery, and a focus on real business outcomes.

Vision:
Committed to total customer satisfaction with quality, innovation & focus, matching international standards while contributing to nation's growth by generating employment and skill empowerment enabling human values and trust.

Mission:
Transformation of business practices enabling our organization to adapt best industry standards to undertake large business activities to grow as an enterprise to make India proud.

OUR SERVICES

At HTCL Technologies Pvt. Ltd., our services are designed to help businesses leverage technology as a powerful driver of efficiency, innovation, and growth. We provide end-to-end IT and digital solutions that address real business challenges while preparing organizations for future opportunities.

Data Center

HTCL delivers enterprise data storage solutions through tailored strategies and robust cloud implementation. Whether you're exploring hybrid cloud data centers or looking for the best data center services for enterprises, we ensure continuity, security, and performance—leveraging analytics, AI, and a resilient, future-ready infrastructure.

In a world driven by data and AI workloads, your digital infrastructure determines your enterprise's agility, uptime, and ability to innovate.

HTCL offers AI data center campuses engineered to host high-density AI workloads. With future-proof architecture, modern liquid cooling capabilities, and intelligent operations, HTCL provides the foundation you need for AI, cloud, and digital transformation.

- **Colocation Services**
- **Built-to-suit data centers**
- **Green data centers**
- **Data Center InterConnect**

IT & Automation

Secure & Intelligent IT Automation Services

IT and automation services utilize software, AI, and robotic process automation (RPA) to streamline, manage, and execute repetitive IT tasks, reducing manual workload, increasing efficiency, and improving system accuracy. Key solutions include cloud management, infrastructure provisioning, security monitoring, and AI-driven business process automation.

OUR SERVICES

Cyber Security

We provide continuous monitoring for maximum network uptime and rapid issue resolution. With proactive risk management and L1, L2, and L3 support, we secure your network using advanced SIEM, EDR, XDR, and top cybersecurity tools—customized to fit your business needs.

HTCL delivers proactive cybersecurity solutions, ensuring secure systems and data with fast threat detection and incident response. Stay protected with our reliable, tailored strategies.

MEP

We deliver end-to-end MEP solutions for residential, commercial, and industrial projects. From design and installation to maintenance, our mechanical, electrical, and plumbing services ensure efficient, safe, and reliable building systems. We pride ourselves on delivering high-quality, MEP solutions that meet their expectations in reliability, safety, and efficiency. Through transparent communication, expert execution, and timely project delivery, we consistently earn the trust of our clients, building long-lasting relationships across India.

Proven Expertise in Delivering Reliable MEP Solutions

We have a proven track record of successfully delivering multiple MEP projects with complete client satisfaction. Our expert team of skilled engineers and technicians brings years of hands- on experience to every project, ensuring solutions that are reliable, safe, and compliant with quality and safety standards. We focus on cost-effective designs that optimize installation and operational expenses, while ensuring timely execution without compromising on quality.

OUR PROCESS

1 **Discovery & Planning**
The first step in our process is understanding your unique business needs, objectives, and our cutomes

2 **Execution & Delivery**
Once the plan is in place, our team moves forward with execution, turning strategies into actiony to deliver.

3 **Review & Support**
After project completion, we conduct a thorough review to ensure everything aligns with your goals and requirements.

OUR SOLUTIONS

At HTCL Technologies Pvt Ltd, we are committed to empowering modern enterprises with advanced technology solutions that transform the way businesses operate, innovate, and grow. As a trusted IT, engineering and digital partner with a strong foundation in quality and process excellence, HTCL delivers a broad spectrum of services—from managed IT infrastructure and cyber security to ERP solutions, digital transformation, and custom software development. We help organisations build resilient, secure and efficient systems that support strategic goals and operational continuity, enabling teams to focus on what matters most—growth and innovation.

By combining deep industry expertise with a client-centric approach, HTCL crafts tailored solutions that improve performance, enhance user experience and unlock new opportunities in an increasingly competitive digital landscape. Whether you are modernizing legacy systems, strengthening data security, or streamlining business processes, our holistic suite of solutions is designed to drive measurable business value and long-term success.

Customer Experience Solutions

We provide comprehensive Customer Experience Solutions designed to help businesses deliver seamless, personalized, and impactful interactions at every touch point. Our services combine strategy, technology, and ongoing support to enhance satisfaction, loyalty, and revenue.

Sustainability and ESG

We help organizations embed sustainability and ESG principles into their core business strategy. Our consulting services enable companies to meet regulatory requirements, manage risks, and create long-term value for stakeholders. By aligning environmental responsibility, social impact, and strong governance, we support businesses in building transparent, resilient, and future-ready operations.

IT Support & Maintenance

We provide comprehensive IT support and server maintenance services to ensure your business technology runs smoothly, securely, and efficiently. Our solutions help prevent downtime, protect critical data, and optimize system performance, allowing your team to focus on core business operations.

Training & Development Programmes

Equip yourself with the most in-demand IT skills to build a successful career in web and mobile development. Our hands-on training program covers front-end, back-end, database, and mobile technologies, preparing learners to confidently handle real-world projects. With expert mentorship, practical learning, and structured career guidance, we ensure you are not just learning but building a strong portfolio that stands out in the job market.

Digital Transformation

In today's fast-moving business world, staying ahead means more than keeping up—it means transforming the way you work, serve customers, and grow your business. Digital transformation is no longer optional. it's the key to efficiency, adaptability, and profitability across every area of your organization.

Communiation Solution

Our solutions provide a range of benefits that help businesses operate more efficiently. By streamlining operations, projects stay organized and delays are minimized. Improved accountability ensures that teams remain on track and responsibilities are clearly defined.

Software & IT Solutions

We provide innovative software and IT services that help businesses stay competitive in the digital world. Our solutions cover web development, mobile app creation, and cloud technologies, offering flexible, secure, and efficient systems tailored to your unique requirements.

ERP Solutions

Streamline your business operations with our Enterprise Resource Planning (ERP) solutions. ERP software helps organizations manage accounting, procurement, project management, supply chain, Payroll and compliance all from a single, integrated platform. With ERP, your business can connect processes, unify data, and gain real-time insights to make smarter decisions, improve efficiency, and reduce errors. ERP ensures that your teams have accurate information whenever they need it. With cloud-ready technology, scalable infrastructure, and real-time analytics, your business stays ahead of the competition.
